Skate Australia road speed events are conducted under the CIC rules. This rulebook provides specific criteria for what constitutes an official track. Skate Australia has historically hosted many national championship events on road tracks that do not meet one or more of the conditions for an official track, and yet these tracks offer fair, safe and exciting racing.

With this in mind the below criteria have been developed for the various types of speed events that Skate Australia conducts. Where a track meets these criteria, but doesn't meet the CIC rules, the Australian speed committee executive may provide an exemption to allow the track to be used in competition.

Road track absolute minimum criteria:

- Must allow for safe racing.
- The track will have a minimum width of 6m.
- Provide for free flowing unhindered racing, i.e. not contain hairpin turns that require significant braking.
- Minimum length of 300m per lap.
- Provide reasonable scope for passing on the finishing straight prior to the finish line.

Using the above criteria, the Australian speed committee executive has granted an exemption to allow the Dandenong Netball Courts Road Track in competition.

Exemption details:

- Symmetrical Track (CIC requirement is for a non symmetrical track)
- 354m per lap (CIC requirement is for between 400m and 600m)
- Finish line less than 60m from final corner
- Track 6 meters wide (CIC requirement is a minimum of 8 meters)

## 14. PROTESTS

- (a) All skaters and team managers should refer to the appropriate rules as set out by the ASC.
- (b) Protest fees are set at \$100.00 per event and must accompany all protests. This fee shall be held by the Chairman of the CSOC. Fees shall be refunded if protests are upheld. If the protest is not upheld the money will be given to the Branch Chairperson for deposit into General Funds.

## 15. MEDICAL COSTS
